Welcome

Welcome to Protek Electronics Ltd's April 2025 Price List. This latest edition includes several significant changes following a comprehensive review of our product range. In response to customer needs, we have discontinued certain products and introduced over 150 new items, showcasing our most extensive range to date.

In Autumn 2024 we successfully launched our Protek Power and Lighting boards, which are highly configurable to meet customer needs. We continue to expand on our Switchboards range, significantly reducing lead times on standard builds, whilst also improving the quality of materials used across our range of Boards and Enclosures. We continually review our range of products and prices, so please either visit www.protekuk.co.uk, or call us on 01543 467575 for more information.

This Price List is available to download on our website or order a copy from your local agent.
